EXPERIENCE

FULLSTACK DEVELOPER
Custommerce sp. z o.o.

11.2022 - 04.2023 (Junior)

05.2023 - now (Mid)

- Designing and implementing a system supervising the implementation of e-commerce product cards on platforms such as: Rossmann, Media-Expert, Allegro, Amazon, etc.
- Creating an application to automate company processes.
- Creating scrapers for e-commerce platforms.
- Developing product cards and landing pages for companies such as: Kärcher, Nivea, Lirene, Polpharma.
- Client contact as part of continuous cooperation.

FREELANCER

01.2020 - now

- Creating websites and web applications according to clients guidelines.
- Deploying software to dedicated servers.
- Providing support in case of problems.
- Creating my own SAAS products and resell them to individual customers.

MAIN PROJECTS

STEALER - ZALANDO-LOUNGE BOT

- I designed, implemented, and coded a web app, browser extension, mobile app, and API for easier purchasing of products on Zalando. Over 8,000 people used it.

RCS - RICH CONTENT SYSTEM

- I coded and implemented a fully functional application for leaving feedback on digital products (such as rich content product pages), managing product versions, sending automatic emails, and approving products after timeouts.

CUSTOMMERCE HOME PAGE WITH CMS

- My task was to code a home page with 46 subdomains, with a CMS in Next.js with connection to REST API.
- The main challenge was to achieve a minimum of 95 performance points on mobile in the efficiency test.
